Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken alone or in combination fails to teach the claimed invention of converting .MAP file format with visual age C++ linker. Further, one or more block of addresses with a particular offset values and the symbol names are associated with particular segment portion offset value pairs by reading the first table in memory which comprises a listing of address values associated with symbol names. A particular address value associated with a particular symbol name then is selected to expedite the debugging process and achieve efficiency. Therefore, the claimed invention improves software development process efforts and reduces complexity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
